

## **Construction Management**

ACC's strength lies in the quality and depth of our professional and technical capabilities. Comprehensive construction management services with established standards for management, reporting and documentation coordinate the many aspects of complex construction projects. From master planning through design and construction, ACC will focus the project on the client's goals. Implementation of customized planning and tracking systems will provide the client with the ability to monitor the progress of the project and the assurance that appropriate controls are in place. Time, cost, and quality parameters will be tightly controlled.
